Subject: AWF RTR Recognition

To Whom It May Concern,

This letter confirms that AWF S.A. is an accredited Channel Partner for Woodward products. AWF have both the commercial & technical authority and technical capabilities to perform turbine control retrofits and / or upgrades using Woodward equipment.

Woodward has a strict quality assurance program to ensure that the commercial and technical support that its Channel Partners supply to Woodward end-users is maintained up to our standards. This program includes regular specialized trainings as well as local audits of its Channel Partners structure, procedures and technical capabilities.

Working closely with all our Channel Partners, Woodward support includes specialised engineers which are always available to help with the design and commissioning of projects should this prove necessary.

When acting as an Woodward RTR, AWF does not have any territorial boundaries within the Woodward network,

If you have any questions related to AWF as a Woodward Channel Partner and / or their capabilities, please feel free to contact me.

Yours sincerely,

M.A.J.M van der Meer
Regional Business Manager
Woodward Governor Nederland B.V.
